PROGRAMME MANUAL

ONE-PHASE APPLICATION PROCEDURE
Introduction

How to get prepared for applying?

Preparing an application for a transnational project has many different aspects to consider before submitting the application: collecting information to find or develop an idea, searching partners in other Mediterranean states, getting familiar with the Programme strategic framework and contents as well as with all technical procedures, assessing the administrative capability, building the project application.

STEP 1 – COLLECTING INFORMATION

The Interreg MED Programme and the National Contact Points of the participating states are the first organisms to request information for the project.

One of the possible first steps to take is to look into the information tools provided by the Programme website and make some desk research. A good way to start is to find ideas for projects, and for that purpose the Interreg MED Programme website provides the Project Library, with a database related to the results and ideas of previous projects.

Another possible first step is to contact your own country National Contact Point for the Interreg MED Programme. The National Contact Points can provide all sort of local information regarding the applications, the ongoing or future calls, the types of projects, the partners in your country and sometimes the NCP organise events, where there is a personal exchange of information.

The Interreg MED programme website displays the contacts of the National Contact Points per Member State of the Programme.

Furthermore, the National Contact Points display information in their own “National information” page of the Interreg MED Programme website.

STEP 2 – GET FAMILIAR WITH TECHNICAL FRAMEWORK OF THE PROGRAMME

It is also advisable that potential beneficiaries go through a review of previous calls for projects in order to get familiar with call procedures, themes or types of projects and partners involved.

Nevertheless, this information should be carefully confronted with the new 2014-2020 Programming Period information material, namely by reading the present manual, the EU regulations, and Application Form guides, available at the Interreg MED website.

STEP 3 – SEARCHING FOR PARTNERS

In the Interreg MED Programme the nature of projects is of cooperation. This means that the project objectives and outcomes must necessarily come from a transnational partnership between institutions from different countries in the Mediterranean cooperation area.

Note that, in searching for partners, only applications of entities and partners based on the cooperation geographical area of the Interreg MED Programme can be accepted for funding. In the Factsheet on “Partnership architecture, requirements and relevance” potential beneficiaries can find all the information concerning partner’s necessary qualifications.
In the search for partners, potential beneficiaries should consider to address entities from among the following groups, which are usually the Interreg MED Programme partners:

- Local public authority
- Regional public authority
- National public authority
- Sectoral agency
- Infrastructure and (public) service provider
- Interest groups including NGOs
- Higher education and research
- Education/training centre and school
- Enterprise, except SME
- SME
- Business support organisation
- EGTC (European Grouping of Territorial Cooperation)
- International organisation, EEIG (European Economic Interest Grouping)

STEP 4 – ASSESSING YOUR ELIGIBILITY AND CAPABILITY

The Interreg Programme MED for 2014-2020 has a new approach for project management: a flexible choice through the modular system for modular or horizontal projects, each type described in the respective factsheets of the Programme’s Manual. Therefore, the potential beneficiaries have to conceive and plan the project based on a specific type of project

- Modular projects: single module or multi-module projects;
- Horizontal projects.

In this context, it is necessary to retain that management and communication skills and experience required vary from module to module and from a type of project to another. For example, being the Lead Partner of a single module project or an integrated project does not require the same management needs. The same applies regarding communication, as in modular projects potential partners won’t have to produce basic communication materials, whereas in a horizontal project they will have to produce a communication strategy for a community of projects. Finally, EU and Programme rules regarding partnership and financial requirements are of utmost importance when preparing a project proposal.

Therefore, potential partners should assess if the organisations involved have the capacities, experience, skills and ambition necessary to apply for a more demanding in terms of management, financial capacity and communication requirements multi-module type of project or horizontal project, or if it has better chances of success applying for a single module project type, where management and communication responsibilities are simpler and financial capacities required are less important. In that sense, the reading of the following Factsheets of the Programme’s Manual is highly recommended:

- Factsheet on “The MED Programme strategic framework”
- Factsheet on “Partnership architecture, requirements and relevance”
- Factsheet on “Type of activities and deliverables”
- Factsheet on “Quality expectations and criteria”
Application procedure

The programming period 2014-2020 brings some changes to the application procedures, among which:

- **100% paperless** application process through the on-line monitoring tool SYNERGIE CTE;
- The proposal itself consists of **two main parts**: an Application Form and several compulsory annexes (including Partners’ additional documents);
- A different deadline is established for the submission of each part;
- Partners’ additional documents (declarations) will be produced using the templates provided by the Interreg MED Programme;
- The Lead Partner must keep all original compulsory annexes in its premises.

Please note that two different application procedures have been established, one in a single phase (for the modular projects) and another in two phases (for horizontal and integrated projects).

Application Procedure Phase 1

**DOCUMENTS TO BE PROVIDED**

Proposals must be submitted electronically using only the on-line monitoring tool of the Interreg MED Programme, SYNERGIE CTE. **Proposals arriving by any other means are not eligible.**

In order to submit a full proposal, the **Application Form** has to be accompanied by some compulsory annexes. Those annexes are to be uploaded (in a scanned signed version, if required) only to SYNERGIE CTE and no paper version is required. The originals must be kept by the Lead Partner.

More specifically, the following **compulsory annexes** are required:

- A scan of the signed **Application Form confirmation page**;
- A scan of the signed **Partner declaration** from all participating partners, including the Lead Partner, using the template provided by the Programme;
- A scan of the signed **“De minimis” declaration** only from the partners whose activities within the project are State Aid relevant and that are willing to apply the **de minimis** Regulation, using the template provided by the Programme if applicable);
- A scan of the signed **Associated partner declaration**, using the template provided by the Programme, one for each associated partner (if applicable).
DEADLINES

The submission procedure consists of two main parts: an Application Form, to be filled in and validated, and several annexes (including Partners’ additional documents) being compulsory, which shall be uploaded: thus please note that there are two different deadlines to be respected.

- The Application Form has to be validated on SYNERGIE CTE by the 1st deadline set out in the concerned Announcement of the Call.

- The uploading of the compulsory annexes to SYNERGIE CTE must be completed by the 2nd deadline set out in the concerned Announcement of the Call.

In order to organise the reception and the treatment of the proposal, the JS needs to anticipate as much as possible the number of proposals that will be received. Lead Partners are invited to create a login for the fulfilment and submission of proposals by the date indicated in the concerned Announcement of the Call. Nevertheless, the creation of logins after that date will be possible.

HOW TO APPLY

The submission of the proposal must imperatively be made through the on-line monitoring tool of the Interreg MED Programme SYNERGIE CTE.

In order to submit the proposal the Lead Partner must:

1/ Create a Lead partner account on SYNERGIE CTE

First, applicants wishing to submit a proposal have to create a login for the on-line monitoring tool of the Interreg MED Programme SYNERGIE CTE by providing some basic contact information including name and e-mail address. SYNERGIE CTE will provide an activation link by e-mail. The account will be activated by clicking on the link.

2/ Fill in the application form on SYNERGIE CTE, according to the type of project selected

The application must be completed on SYNERGIE CTE. Guidance on how to fill in the form and what is expected in each question is provided in the SYNERGIE CTE Guides. All documents needed for the development of the proposal, including the Programme Manual, the Terms or Reference and a courtesy Application Form in word format (not to be used for the submission), are available on the Interreg MED Programme website.

Before starting to work on the application on SYNERGIE CTE, the Lead Partner must choose the specific objective and the type of project to be submitted, according to the Terms of Reference of the call and Programme guidelines. In case of mistake, kindly contact the Joint Secretariat (JS) (programme_med@regionpaca.fr) as soon as possible in order to correct the situation. In some cases, the only solution would be to start the fill in of the Application Form again.

The Application Form has to be drafted in one of the two programme languages (English or French). There are some sections of the Application Form where information is requested in the two programme languages. Kindly bear in mind that the short description of the project in both languages is compulsory.
Bear in mind that coherence check will not replace the formal eligibility check. For further information, please refer to the Factsheet “Appraisal of project proposals (eligibility and assessment criteria)” of the Programme Manual.

Coherence checks shall be made during the whole period of the drafting; it is not recommended to wait until the final stages unless Lead Partner disposes of enough time for all corrections. Lead Partners are invited to use the coherence check after saving each section of the Application Form. Be careful not to let any results of coherence checks in red or orange on SYNERGIE CTE. They must be green even when they are not preventing the submission.

3/ Request the additional documents to partners signed

All partners must fill in a Partner declaration using the template provided by the Programme. These forms are then to be dated and signed by the Partner legal representative, scanned and thereafter sent to the Lead Partner. Before filling in the Partner declaration, partners are requested to read the section on co-financing in the Factsheet “Partnership architecture, requirements and relevance”, the Factsheet on “State Aid” and the Factsheet on “Eligibility of expenditures” very carefully. The form provided by the Programme cannot be altered or amended in any way.

Besides, only partners whose activities within the project are State Aid relevant and that are willing to apply the de minimis Regulation, must provide a “de minimis” declaration indicating any contribution received during the previous three fiscal years falling under the de minimis Regulation. Before filling in the de minimis declaration, partners concerned are requested to please read the Factsheet on “State Aid” very carefully. The form provided by the Programme may not be altered or amended in any way.

Associated partners should sign an Associated partner declaration provided by the Programme. The information regarding associated partners in the Application Form will not be considered if the relevant associated partner declarations are not provided.

No other type of document and no modification to the standard documents provided by the Interreg MED Programme will be accepted. All documents must be dated and signed.

Lead Partners are invited to check that the information included in the partner declarations is coherent with the information entered on the Application Form on SYNERGIE CTE. If any information, especially the co-financing amount, is not coherent, the Lead Partner must correct it.

4/ VALIDATE the content of the application form on SYNERGIE CTE by the 1st deadline

Once the application is entirely filled in, the Lead Partner must validate the Application Form on the on-line monitoring tool by the 1st deadline set by the Programme when launching the Call for Proposals. Please bear in mind that the validation will only be effective after having pressed the VALIDATION button (a single confirmation e-mail is automatically sent by the tool when the validation has been performed correctly). Should Lead Partner encounter any problem in filling or validating the Application Form on SYNERGIE CTE, it is imperative to contact the JS (programme_med@regionpaca.fr) before the closure of this phase.

Once Application Form is validated, it cannot be modified anymore. Lead Partners are invited to keep the e-mail sent by the system attesting the time of validation (GMT+1). Please bear in
mind that the e-mail will be sent to the contact person address entered previously in the system: kindly check that this information is correct in order to receive the confirmation e-mail.

5/ UPLOAD compulsory annexes through SYNERGIE CTE by the 2nd deadline

All the compulsory annexes must be uploaded to the system by the 2nd deadline set by the Programme when launching the Call for Proposals. In the framework of this call, the following documents must be uploaded:

- A scan of the signed Application Form confirmation page. Only the page of the PDF including the date, the signature of the Lead Partner has to be uploaded. This page (point 2 of the summary, signatures) must have the mention “SUBMITTED”.
- A scan of the signed Partner declaration from all participating partners using the template provided by the programme, including the Lead Partner. The national co financing amount included in this declaration must correspond to the information stated in the Application Form validated.
- A scan of the signed “De minimis” declaration, only from the partners whose activities within the project are State Aid relevant and that are willing to apply the de minimis Regulation, using the template provided by the Programme.
- A scan of the signed Associated partner declaration (if applicable), for each associated partner using the template provided by the Programme (if applicable).

Each document shall be scanned and uploaded individually and shall not exceed the size of 8 MB. Should Lead Partner face any problem uploading the additional documents on SYNERGIE CTE, it is imperative to contact the JS (programme_med@regionpaca.fr) before the closure of this phase.

Once the deadline for uploading the document has passed, no more documents can be uploaded. Lead Partners are invited to keep a screen shot of the list of uploaded documents

6/ Gather and keep the paper version of the signed documents

Original paper version of the signed - and stamped documents uploaded to SYNERGIE CTE must be gathered and kept by the Lead Partner.

GENERAL INFORMATION ON THE APPLICATION

Kindly be reminded that it is essential to consult all the reference documents of the Programme (Cooperation Programme, Programme Manual and Terms of Reference of the call) when preparing the proposal. In addition, it is advisable to pay attention to the following:

- For the application, all accessible sections provided in SYNERGIE CTE must be filled in.
- Please refer to the Factsheet “Appraisal of project proposals (eligibility and assessment criteria)” of the Programme Manual in order to find the administrative and eligibility criteria to be respected as well as the quality assessment criteria that will be used for the selection of the proposals.
- Remember that the submission of the proposal is performed in two steps. First, the Application Form has to be validated, after that, all compulsory annexes have to be uploaded. Please bear in mind that the two deadlines must be observed in order to consider the proposal eligible. Once Application Form is validated, it cannot be modified anymore.

- The preparation costs will amount to the lump sum of **EUR 30 000** of **total eligible expenditure** per project.

Lead Partners are invited to fill in the Application Form in SYNERGIE CTE as early as possible. Some sections can be filled in during the preparation of the Application Form and be modified after if needed (until the final validation). Coherence checks should be launched throughout the drafting and before the final validation to correct eventual inconsistencies.

Moreover, please bear in mind that the signature of the partners’ additional documents and their uploading can take some time. For this reason, after the validation of the Application Form, a second deadline exists to upload them (respecting the size limit established of 8 Mega for each document) for the submission of the full proposal. **Kindly note that the last day for the submission of the proposals may be very busy for the system and that it could slow down.** Any problem in submitting the proposal or uploading the documents not caused directly by SYNERGIE CTE will not be considered. Should Lead Partner encounter problems, it is imperative to contact the JS before the closure of the call.

Finally, please do not hesitate to contact the MED JS for any further information.
